

Washing Machines

Flatwork ironers

HM 21 - 140

Performance specifications

Roller diameter : 21 cm

Roller length: 140 cm

Ironing throughput: 27 kg/h according to DIN 11902 at 25 % initial residual moisture

Control system

Infinitely variable temperature control

Roller speed freely selectable

Connection for coin mechanism

Features

Steel wool padding with ARAMID needle felt cloth

Treadle switch controls

Chrome-plated airing bar

Extraction fan

Heating

Electric

Design

Return feed operation

Aluminium trough

Roller bearings on both sides

H x W x D: 105.5 x 164.4 x 67 cm

Safety feature

Patented finger guard

Manual trough release in event of power failure

Temperature limiter

Test certificates

TÜV/BG GS

EMV-CE
