

Laundry equipment

Tumble dryers

Performance specifications

Load ratio: 14 kg
Drum volume: 350 l

PT 5351

Control system

Timetronic
Time-control with temperature selection option
Straight fascia
Digital display
Selectable temperature
Selectable time (up to 60 min in 5 min steps)
Emergency Off function
Optional: COP control
("Coin option" - For operation with an external payment system, e.g. in a launderette)

Features

Air Recycling
Central air intake possible
Large-surface fluff filter

Heating

Electric, gas

Drying technology

Automatic reversing
Final cool down

Design

Galvanised sheet-metal casing
Octoblue powder-coated (except rear panel)
Stainless-steel front optional
Unperforated drum body made from stainless steel
Large drum diameter
Axial air flow
Vent system
H x W x D: 139 x 90.6 x 94.8 cm

Test certificates

VDE / CCA, CE ident. no., EMV-CE, Splash-proof
