

**Little Giants**

Washing machines

**PW 6065****Performance specifications**

Load ratio: 6.5 kg  
Drum volume: 59 l  
Spin speed: 1400 rpm  
g-factor: 526  
Residual moisture: 50 %

**Control system**

PROFITRONIC L

Electronic controls with high-end liquid-crystal display;  
6 standard programmes and up to 9 special programmes available;  
Simple navigation with multifunction selector;  
Multi-language user interface (21 languages selectable);  
Countdown indicator;  
Drum lighting.

**Drive**

Asynchronous motor with frequency controls

**Features**

Stainless-steel suds container; 2 specialised heater elements;  
Sluice & thermal disinfection programme to NHS HSG (95) 18 on dump valve version  
Alternative non-healthcare version with drain pump ; Hot and cold water connection ;  
Coin mechanism connection, Serial RS 232 interface, optical PC interface.

**Heating**

Electric

**Dispensing technology**

Three-compartment front dispenser; Pre-equipped for connection to 4 liquid-dispenser pump.

**Wash technology**

Patented honeycomb drum;  
Scoop-and-ladle technology;  
Automatic load control;  
Two-stage imbalance sensing.

**Design**

Robust spaceframe casing;  
Optional front and side panels stainless steel or enamelled front and sides in white, machine lid with stainless steel;  
Large porthole door aperture (30 cm diameter);  
Tumble dryer can be stacked on top using WTV 5061 (white) or WTV 5062 (stainless steel) stacking kit  
Dimensions: H x B x T: 850 x 595 x 715 mm.

**Test certificates**

VDE, EMV, WRAS
