

**Laundry equipment**

Washer-extractors

W 6073

**Performance specifications**

Load ratio: 7,5 kg  
Drum volume: 73 l  
Spin speed: 1200 rpm  
g-factor: 450

**Control system**

Electronic controls  
Multitronic MC 23 with 23 fixed programmes (drain pump version)  
Multitronic MC 13 healthcare version with 13 fixed programmes including sluice and thermal disinfection to NHS HSG (95)18. (dump valve version)  
Additional user-programmable functions (PFT)  
Programme sequence display  
Temperature and countdown indicators  
24 h delay start (MC 23 only)  
Pushbutton for door release

**Drive**

Frequency-controlled drive  
Variable wash and spin speeds

**Features**

Dump valve flanged directly onto suds container (AV), as alternative to drain pump (LP)  
Hot and cold water connection  
Coin mechanism connection option  
Connection of 3 dispenser pumps possible

**Heating**

Electric

**Dispensing technology**

Four-compartment detergent dispenser in machine lid

**Wash technology**

Scoop-and-ladle technology  
Gentle start mechanism  
Graduated spin  
Interim spin

**Design**

Machine front and lid in stainless steel, galvanised, blue powder-coated side panels  
Stainless-steel suds container and drum  
Honeycomb drum with unique surface structure  
Large door with wide opening angle, door without concertina seal  
Recycling-friendly design with labelled virgin polymers  
Dimensions:  
H x W x D: 102 x 73 x 71 cm

**Test certificates**

DVGW (Water)  
Splash-proof  
EMV-CE  
WRAS
